

# 2022 COLOR COLLABORATION

May 2022

Our Oklahoma City location held a fantastic event in collaboration with Benjamin Moore and Cambria to kick off the summer in what became known as the 2022 Color Collaboration. This open house event featured the most beautiful natural stone, quartz, paint, cabinetry, and other design elements! Designers and other industry professionals toured our showroom to view a curated collection of natural stone and quartz surfaces paired with matching paint options, fabric swatches, cabinetry colors, fixtures, and finishes while grazing on a delicious slab-sized charcuterie board.

The idea was to visualize all of the pieces of design fusing together, creating the perfect mix of colors, tones, and textures. Keep an eye out for this event in some of our other markets, such as Springdale, Arkansas, and Tulsa, Oklahoma, coming this fall.
